

Realms Arbitration Committee Event Report Form

The Arbitration Committee is requesting your assistance in compiling information on rule violations in game, for the purpose of ensuring that behavioral patterns that might not warrant action when taken as an isolated incident are recognized.

Please complete and return this report on rule violations that were noticed/reported at your event. Doing so will not initiate formal action by the committee. If you have a situation you feel requires formal action you should complete a complaint form.

If patterns of rule violations occur in these reports, the committee will notify all event holders via the Event Holders list, so that individual event holders can take them into account when deciding how to handle future violations.
